# INTRODUCTION

BINGSU COIN (\$BSC) is a community meme token to all Bingsu lovers. Binance Smart Chain (BEP20) has been applied as its core blockchain featuring the Bingsu - a Korean shaved ice dessert with various sweet toppings that may include chopped fruit, condensed milk, fruit syrup, and so on.

Creating something out of nothing, this meme token aims to build a strong decentralized community following by establishing a support goal of 100 million street children worldwide.

## The BINGSU COIN Ecosystem

The BINGSU COIN ecosystem consists of the following two tokens:

- **BINGSU COIN (BSC)**: This is the project's foundational currency. Starting with a supply of 1 quadrillion (equal to 1,000 trillion), 50% of a total supply will be locked in Pancakeswap (for liquidity purposes)
- **NFT GAME (Trilogy)**: In collaboration with some blockchain-based platforms, BINGSU's trilogy games offer further "share-to-earn" incentives to gamers. The share-to-earn model is an innovation on the play-to-earn model, which has worked well for many Web3 games. BINGSU's trilogy allows the community to connect with other NFT gaming community. With the new share - to- earn model, group participation is rewarded, and the APY yield for the group's holdings is determined by group activity. Holders can buy and sell items or collectibles on any NFT marketplace.
- **Bingsu for Street Children**: Bingsu for Street Children is a social program from Bingsu Coin that focuses on the movement to establishing a support goal of 100 million street children worldwide.

We are going to build some donation or charity programs to create better lives of children to grow up strong in this world.

### How to Buy BINGSU COIN

# Funding

Bingsu Coin is a community-owned project with no tokens reserved for the team. Therefore, it runs primarily on volunteers and donations from the community.

Funds contributed by our community will go toward three things:

- **Marketing Hiring**  
Social Media Influencers, Digital Advertising, Real-World Promotion.
- **Exchange Listings**  
Increasing our reach by listing on new exchanges beyond Pancakeswap.
- **Product Development**  
Executing our roadmap and expanding the Bingsu Coin ecosystem.

## Conclusion

Bingsu Coin is not only a meme coin or meme token. It was built to give a social impact for street children. The growth of the project doesn't only depend on the developer, but also depends on the community.

**We are proposing a new way to build wealth yet concerned about children of the world.**
